

COMBUSTION TECHNOLOGY NEWS

Issue 1

January 2007

HERE'S TO A GREAT 2007!

Combustion Technology once again experienced a busy year in 2006 and already 2007 looks set to be the same!

Later in 2007 we will be celebrating our 20th anniversary! More about this later in the year....

Many new clients joined us during 2006 after much preparation and hard work to secure the deals. We were also successful in securing a number of tenders which will certainly keep us on our toes during 2007!

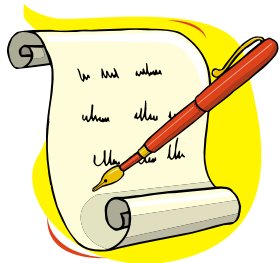

From a marketing viewpoint we were extremely visible during 2006 with exhibitions in both Gauteng and the Free State. Two exhibitions back to back in Johannesburg proved to be good for business and it was great to be able to meet up with customers, both old and new.

Our customers seem to be enjoying our regular newsletter, together with the "Back Page Specials". This newsletter enables us to keep in touch and keep you informed of happenings in our industry.

We wish you and your business a successful 2007. May you go from strength to strength. May our country also do the same. We have much to look forward to in the future South Africa. The build-up to 2010 should now be gaining momentum and the repercussions of which should be felt in many different industries.

Grant Renecke
MD Combustion Technology

NOTES

Our Boiler and Burner Optimisation Seminar being held in Johannesburg on 7 February 2007 is fully booked!

25 delegates will be joining Grant Renecke at Cabanga Conference Centre for the day to find out all about optimising your burner and boiler and saving money.

The seminar held in Cape Town during October 2006 was also a huge success.

These seminars will be a regular feature on our marketing calendar in future. Should you have any specific topic you think should be covered please contact us.

Watch this space for dates and places!

The 1st Africa Combustion Conference and Exhibition will be held 15th–16th March 2007, at the Indaba Hotel and Conference Centre, Fourways, Johannesburg, South Africa. This is a single forum for showcasing combustion equipment and introducing suppliers and customers.

The website address for the conference is:

www.africacombustion.co.za

GREY IMPORTS!!!!

If you are not importing from a recognised Riello importer or service company then all your equipment and spare parts will have the following logo

This logo means that the Riello products are not authorised for exports. This logo is only used in Italy on their local products. Equipment bearing this logo outside of Italy will not be sanctioned or serviced by Riello. Combustion Technology and its distributors cannot supply guarantees or service support on these products.

Only equipment bearing the following logo will be serviced and supported by Riello and Combustion Technology in South Africa.

So ensure that you are dealing with an authorised and recognised importer or distributor of Riello products before its too late!!
