## echo floors

Adam Leightley has had a busy and successful year at Combustion Technology. Adam recently sold a 2 Ton Steam Boiler with a Riello P 200 burner to Echo Floors.

Echo Floors uses steam in the process of curing the concrete slabs they manufacture at their plant in Muldersdrift, just outside of Johannesburg.

## think green

### Some Interesting Facts

- \* Up to 60% of the rubbish that ends up in the dustbin could be recycled.
- \* The unreleased energy contained in the average dustbin each year could power a television for 5,000 hours.
- \* On average, 16% of the money you spend on a product pays for the packaging, which ultimately ends up as rubbish

- # 1 recycled tin can would save enough energy to power a television for 3 hours.
- # 1 recycled glass bottle would save enough energy to power a computer for 25 minutes.
- # 1 recycled plastic bottle would save enough energy to power a 60-watt light bulb for 3 hours.
- # 70% less energy is required to recycle paper compared with making it from raw materials.
